

12V ultra-compact multifunction emergency portable starter for motorcycles, automobiles, campers, marine engines etc. Fit with 5V USB outputs to charge (power bank) electronic devices (tablets, smartphones, MP3 players, notebooks, cameras etc.), one 12/19V output to power laptops and other devices and a high intensity emergency LED light. It uses high-efficiency lithium polymer cells that provide rapid and complete charging, constantly monitored by a series of multicoloured LEDs. Protection against output overloads and short circuits. Complete with 230V AC - 14V DC power supply, positive-negative cables with clamps and various connectors for mobile devices.
