**FOR 50 MM PIPE!**

## ***P-TEC 5000 Plastic Drain Pipe Cutter*** Cut, deburr and bevel thin-walled plastic pipe in only 1 step and few seconds!

After introducing the **P-TEC 3240**, the first cutter of its kind that provides the hassle free ability to perform a clean, fast and straight cut on 32 and 40 mm plastic drain pipe, **RIDGID®** now expands its offering with the brand new **P-TEC 5000...for cutting 50 mm pipe!**

The P-TEC 5000 allows the user to cut 50 mm PVC / PP and PE pipe much faster and cleaner than a hacksaw. There is no need for a second tool to deburr and bevel as this is automatically done parallel to the cutting in only one step!

The P-TEC 5000 features an open bore design, which:

- reduces required hand force for cutting the pipe;
- fully eliminates sliding on the pipe;
- and also makes it possible to cut double-flanged 50 mm drain pipe.

**Product** ..... **RIDGID® P-TEC 5000**  
**Cat. no.** ..... **40868**  
 Weight..... 0,3 kg  
 Capacity..... 50 mm only
